The 39th University of North Carolina TEACCH Autism Program Conference is designed to provide professionals and caregivers information about early identification of ASD and highlight interventions for children in the early years.

Objectives:
- Understand the neurobiological risk factors of early autism
- Learn models of early detection and research-based interventions
- Share methods for working with families of young children with autism

-2019 Conference Presenters-

Dr. Joseph Piven M.D.,
University of North Carolina

**TOPIC:** Brain imaging and the Early Identification of ASD

**Learn More**

Nicole Dreiling, Ph.D.,
University of North Carolina

**TOPIC:** Project ECHO Autism: Increasing Access to Rural Healthcare Through Teleconsultation

**Learn More**

Emily Rubin, MS, CCC-SLP,
Marcus Autism Center

**TOPIC:** Using the SCERTS model to support young children with ASD

**Learn More**

**Amy M. Wetherby, Ph.D., CCC-SLP,**
Florida State University School of Medicine

**TOPIC Lecture 1:** Changing Developmental Trajectories of Toddlers with ASD: Strategies for Bridging Research to Practice.

**TOPIC Lecture 2:** Mobilizing Community Systems to Improve Early Detection of Autism Spectrum Disorder and Access to Care

**Learn More**

Lauren Turner-Brown, Ph.D.,
University of North Carolina School of Medicine

**Topic:** The TEACCH for Toddlers model

**Learn More**

Alycia Halladay, Ph.D.,
Autism Science Foundation

**Topic:** Information and misinformation in early autism

**Learn More**

**Target Audience:**
This conference is designed for psychologists, speech language pathologists, social workers, educators, rehabilitation therapists, counselors, case managers, allied health professionals,
persons with autism/parents, and other healthcare providers involved in the treatment of young children with ASD (ages 0-5 years).
