

**North Carolina Department of Public Instruction, Exceptional Children Division**

**School-Based Practice Advisory Council for TBI**

*Purpose:*

- To support adequate training and continued professional development for school-based psychologists in the area of TBI (in accordance with requirements of *NC Policies Governing Services for Children with Disabilities*)
- To serve as a feedback loop and problem-solving team in order to appropriately address field-related issues surrounding the evaluation, identification, and support of students (PK-12) who have sustained a TBI and are receiving their education through a public education agency
- To provide best practice recommendations to NCDPI in the area of TBI, and also serve as a resource to NCDPI in their decision-making on school-based practice issues related to TBI
